SUMMARY

Results-oriented Developer specializing in the React ecosystem (Next.js, React.js, React Native). Proven track record of architecting scalable web and mobile applications with a focus on high-performance rendering and seamless user experiences.

EXPERIENCE

Software Developer

V2 Retail Limited   October 2025 – Present, Gurugram, Haryana

· **Travel Dashboard – Employee Reimbursement System.**
· Developed a mobile dashboard that allowed employees to upload bills and PDF receipts for travel reimbursements, improving processing efficiency and reducing manual effort by 30%.
· Built reusable, modular UI components to ensure consistent user experience across devices.
· Integrated REST APIs for claim submission, status tracking, and approval workflows.
· **Technologies:** React Native, Typescript, React Hook Form.

Software Developer

Fastrack Limited   December 2023 – October 2025, UK

· Built responsive UI components using **React.js**, improving UI stability by **30%**.
· Integrated **REST APIs** for cart and **OTP authentication**, increasing login success rate by **35%**.
· Improved performance and user experience by optimizing page-load times, implementing lazy loading for images.
· **Technologies:** HTML, SCSS, JavaScript, React.js, Redux Toolkit.

Full Stack Developer

Binmile Technologies Pvt Ltd   April 2022 – December 2023, Noida, Uttar Pradesh

· **Adani One – Airport Car Booking**
 · Developed reusable React components for MWEB and Desktop platforms, reducing development time for future features by **22%**.
 · Integrated APIs for cab-booking statuses and created a configuration-driven UI.
 · Optimized state and data flow using Redux Toolkit, improving overall UI responsiveness by **20%**.
 · **Technologies:** JSX, SCSS, JavaScript, Redux Toolkit, Next.js.
· **Adani One – Airport Food & Beverages**
 · Designed a responsive, user-friendly interface for in-flight and post-flight food ordering, increasing user engagement by **20%**.
 · Built fast, interactive, SEO-friendly pages using Next.js and React.js.
 · Implemented ESLint and SonarLint, reducing code review time by **15%** and improving code quality.
 · Automated time-slot allocation based on user preferences.
 · **Technologies:** JSX, SCSS, JavaScript, Next.js, Redux Toolkit.

PROJECT

Netflix-GPT

· Built a Netflix-like movie browsing interface using React.js with a responsive, modular component architecture.
· Integrated TMDB API for real-time movie data and dynamic content updates.
· Implemented Firebase authentication for secure user login and profile management.
· Developed a chat-based movie recommendation system using OpenAI GPT APIs, enhancing personalization.
· Improved application performance with lazy loading, memoization, and optimized state management using Redux.

Foodies - Restaurant Listing & Menu Explorer

· Built a restaurant discovery and menu browsing SPA using React.js with modular functional components.
· Implemented dynamic routing & lazy loading, improving page load performance by 30%.
· Integrated live restaurant data using Swiggy APIs, providing real-time menu updates.
· Optimized performance using React hooks and state management best practices.

EDUCATION

B. Tech - Computer Science

Dronacharya College of Engineering (MDU) · Gurugram · 2022

Higher Secondary School – PCM
Guru HarKishan Public School Kalkaji · New Delhi · 2017

Secondary School
Tinu Public School · New Delhi · 2015

SKILLS

Languages: JavaScript, TypeScript.
Frontend: HTML, CSS, SCSS, React JS, NextJs, React Native, Redux Toolkit.
Version Control: Git, GitHub.
